IT PROJECTS

(to open the project click the project title)
PERSONAL WEBSITE JAVASCRIPT(JQUERY), HTML, CSS(SCSS), GULP
My personal website, which contains all the projects I've made.

SEARCH COUNTRY API

REACT, GOOGLE MAPS, REST API, WEBPACK
Application which allows you to search and get information about any country in the world.
In this application you can display country from API, and read the most important information.

NOTES APPLICATION

JAVASCRIPT, JSON SERVER, AJAX (AXIOS), WEBPACK
Application which allows you to manage your notes. In this application you can display notes from database, add new note, delete and edit notes from the database. In this application I also used Routing and Bootstrap.

MEMORY GAME

JAVASCRIPT(JQUERY), HTML, CSS(SCSS), GULP
Classic memory game based on a Game of Thrones theme. This is a game which all of the cards are laid face down on a surface and two cards are flipped face up over each turn. The object of the game is to turn over pairs of matching cards in as few moves as possible

ZOMBIE GAME

JAVASCRIPT, HTML, CSS
A same game which you must use your mouse and "shoot" the zombie :). Game combines interesting animations created in CSS.

I hereby agree for processing my personal data, included in my job offer, for the purpose of recruitment (as defined in the Act of May 10, 2018 on the Protection of Personal Data).
